## about.

---

Yash Mehrotra is a versatile technologist with expertise in web development, Android app development, and a strong passion for Artificial Intelligence and Machine Learning technologies. Currently pursuing a Bachelor of Science in Data Science and Applications, Yash has actively participated in several hackathons and was a finalist in the Smart India Hackathon. With hands-on experience in web and mobile application development, Yash has demonstrated proficiency in creating robust and user-friendly solutions that meet the unique needs of clients. Additionally, his enthusiasm for AI and ML drives him to explore and implement innovative algorithms and models to solve complex problems. A continuous learner, Yash actively seeks opportunities to enhance his skills and knowledge in technology and data science, reflecting his commitment to personal and professional growth and making him a valuable asset in the tech community.

## education.

---

<b>Indian Institute of Technology Madras</b>	09/2023 – Present
Bachelor of Science, <i>Data Science and Applications</i>	
<b>St. James School , Hardoi</b>	04/2009 – 03/2023
Intermediate , <i>Pure Science</i>	

## work experience.

---

<b>Google Developer Student Club - Indian Institute of Technology, Madras</b>	01/2023 – Present
Mentor, Linux and system commands	
<ul style="list-style-type: none"><li>• Became one of the founding volunteers for GDSC IITM's Linux division</li><li>• Hosted tech talk : Switching to Linux</li><li>• Leading a community of 140+ in system commands, troubleshooting and OS related problems</li></ul>	

## skills.

---

### programming languages

- Python, JavaScript, TypeScript, Java, Rust, C

### web frameworks

- Node.js, Express.js, Nextjs , FastAPI, Flask

### android/ios frameworks

- React Native , Swift
